PCAs are trained by Career Services to help fellow students with resumes and cover letters, explore opportunities and to share their experiences and offer advice.

PCAs hold events throughout the year and are available to meet one-on-one, so reach out any time. You might not think that you need to prepare for your career right now, but it’ll be important to have the connections and resources when it comes time.

Where can you find PCAs?

One-on-one Appointments
You can email a PCA directly to request an appointment to get help with your resume and cover letter, internships search and more.

Learn more at http://careerservices.princeton.edu/pca.
